

FKF-K2 series

High-Efficiency Activated Carbon Box ((Panel Type))

Low Resistance, High Efficiency, And Cost-effective

High-quality columnar carbon

High-quality columnar activated carbon, strong adsorption, fast deodorization, no ash, no secondary pollution.

W-type carbon plate structure

The W-shaped honeycomb mesh carbon board has more uniform filling and more thorough purification; less pressure drop.

Well-developed pore structure

The microcrystalline carbon material has a large specific surface area. The unfolded surface area of the micropores in 1g of carbon can reach 800-3000m², and the adsorption capacity is large.

Humanized design

Modular combination, pull-out activated carbon board, independent transparent plastic bag packaging, easy installation and maintenance.

Product parameter

Model	FKF-06K2	FKF-08K2	FKF-12K2	FKF-15K2	FKF-20K2	FKF-23K2
Processed Air Volume(m ³ /h)	4000	4700	8000	9400	13000	14100
Equipment Pressure Drop(Pa)	100-300					
Dimension(L*W*H mm)	600*717*705	600*811*705	600*1363*705	600*1551*705	600*2009*705	600*2291*705
Equipment Weight (kg)	57	71	93	114	130	167
Activated Carbon Content (kg)	13.5	16	27	32	40.5	48
Maintenance Space (mm)	1030					
Shape of Carbon Model	Activated carbon plate type					
Mounting Feet Height (mm)	130
